

Basic Aesthetics Course for Medical Personnel (MD, PA, NP, LA, other)

This two day course is designed to train medical professionals to competently and professionally offer the latest in cosmetic medicine procedures in a medical spa setting. If you have the necessary licensing and work under the supervision of a physician, we can train you in the clinical, professional, consultative and retail sales skills of a medical aesthetician. The facial aesthetics part of the course is taught at the Alexander Thomas School of Esthetics in Brookfield, Wisconsin by Lauri Thomas, Licensed Aesthetician and owner of the Alexander Thomas School of Aesthetics. Lauri will condense her years

of experience into two days to teach you how to perform a medical grade facial, chemical peel, medical microdermabrasion and to diagnosis basic skin disorders and treat the common skin and anti aging conditions that we see in the medical spa business.

Practice Management Consultant and author of "Building a Successful Cosmetic Medical Business" 16 DVD program for the aesthetic industry, Cindy Graf. will conduct an IPL/Laser training course which includes both physics, treatment strategies, pre and post operative care of clients receiving treatments for permanent hair reduction, vascular treatments, fractional skin resurfacing, pigment problems and acne treatment with laser and or Intense Pulsed Light therapies. Her skill at teaching the "Tools of the Trade" will help you to sell multi- procedural packages to your medical spa clientele.

Medical Aesthetician, Yvette Willis will teach mineral make up makeover artistry and camouflage make up techniques as well as help with laser/light hands on treatments.

The Basic Aesthetics Course for Medical Professionals includes both didactic and hands on experience in the latest techniques in aesthetic medicine. Certificates of Training will be presented at the end of the course. Contact Lauri at 262-780-9866 to register for the next session.

FEES ARE \$2500. Travel to and from Milwaukee Mitchell Field (WI) and hotel accommodations are not included.
